Blood Moon

This is a Reprint of Interest from other Christians

Does this seem strange that all of Israel's embassies have been closed, what do you think? What's going to happen next? Astronomers, Christians and any other interested readers and seekers are talking about the upcoming lunar tetrad, a series of total lunar eclipses which begins on the night of April 14-15, 2014. Biblical prophecy regards the upcoming tetrad as especially significant because it coincides with two important Jewish holidays: Passover and Tabernacles.
