

The Satanist

STORY ONE

CHAPTER ONE

CONSTRUCTION

THOU SHALT KILL

I am going to expose all about my initiator and his biggest teaching to me in these series, but first repeat the prayer I am giving below. Please repeat it aloud, say it openly and it will make you get the whole of these notes. If you don't, you will not get the inspiration source needed to complete the action. I know what I am talking, trust this, and please repeat word by word:

I open myself to the Golachab principle of the sixth realm in heavens. I open myself to the other side of being.

I open myself to Him and I am becoming a channel for Him.

I am a channel of the sixth realm and I get the energy and knowledge coming from Him into me. I am accumulating the Black Light, and I am channeling it outside.

I became a part of the other side of existence, and its power.

Try to be honest in your tone of wording. Try to feel it word by word. As I said it is necessary to get my whole message in these writings.

SILENCE

He has died within deep down the ocean two months ago. Well, at least that's the current information. He has some techniques to transfer his consciousness to new host bodies, so well he is probably alive somewhere else but we don't know where or whom with. The technique is like both deep hypnotism, astral body replacement and energy centers rearrangements mix; it is a high level in 'arts' as we call it.

He is human. Or, lets say, once he was. Now it is a little complicated. What, or how you can think of someone well above from humanity in all aspects?

Incarnation gates are at the hands of our allies. He was one of the first ones to contact those so-called "Karmic masters'. The enemies? "White ones" they call themselves, they hold the centers pumping energy to these prison lands.

Let me tell you my story a little too, which can make you understand him better.

I want to behave childishly and pour the whole destruction power of universe which it universe itself can or cannot hold. It should be just on the line of total destruction and luckily salvation. Ambiguity is needed, even at the end. Borderlands or extremity? No, just the nature of my self. My teacher said he liked this side of me and decided to teach me.

He made me create a new magical Order.

"Aim is to progress. Next frontier for humanity is not genetics, not space, not computers= it is the "mind" itself. Others can assist this either. So, the fruit of this aim is the progress of mind. You will serve this aim, help others to progress in it at the same time, and this aim will serve you, and those others will serve you in return aswell."

"Order means you will enforce an orderly struggle for the mind progress. Bigger part is your own control of your self, lesser part the others. Any goal needs instruments. An Order aimed on mind progress needs the instrument of total mind control, both your own and others, which is something found in the least place coming into mind."

"You know the way to control your own mind. It is nothing for you. Controlling the minds of others work very similarly to the principles of To apply it contemplate and create corresponding associations, try to explain everything with the dynamics of First you need to get total attention of others. For this, people should need something you hold and know it that you hold this thing. This

is the second greatest type of power as you know. How you can create this power turbulence within you, find it yourself."

I associated many things he was teaching to me with each other. I found the answers for how to create this power out of nothing targeting all others around the world.

Since my teacher didn't teach this thing openly to me, I will not do it to you either. Not now. Read on. You will understand better at the end. Hopefully.

TRASH CAN

You are, in essence, need to learn some other apparently unrelated stuff. Let's make a story within story:

...

".. but why eleven cards, shouldn't it be ten?"

Surprized reaction in his old eyes. At the same time like he has heard something very funny :

"Don't you know?.."

...

Hint: Connect the dots. I am not going to give you more 'hints' about what hints are going on.

Ehm.. Well, if you are still reading this "story" of mine, probably it means I have found a new succesful sub-genre in storytelling.

NECROPHILIA

I have met my teacher in a theatre performance for the first time. He was wearing all-red. He made me focus on the play and asked questions related to act of 'playing'.

He even tested me. He has tested me many times, and I have passed many of them, otherwise I would not talking these issues to you as I guess.

Anyways this first test was just to make me sing a song from a music type I don't like at all. I had to perform it in all integrity and full involvement. Success. But such an act makes you feel like if you have fucked in the ass.

Good side is transformation and it also relates to the truth about theater performance. There are learned and unknown 'acts' for each person; and we use the most well known plays in our daily lives automatically.

When you start to be 'anything', or nearly anything automatically, you are said to be ready to walk the 'path'. It is also related to power and authority. Politics. Never forget the 'integrity' part. It is not doing something you are actually not. You are nothing. You are empty. You can become anything. And you should really become these things. This is the art of ritual magic either.

It really connects you to higher truths in existence. It really opens spiritual gates.

Now you are answered on why I have inserted such a different introduction at the beginning. I am not going to teach you openly, and the knowledge you seek now can only be unveiled to you if you embrace the energy channel I have described, even gave a key.

If you do not tune into it, you will not be able to connect the dots. So, if you didn't what I said exactly as I said, do it now, start reading from beginning.

Yes, theatre. Is it also another hint to final question? No.

HATCHERY AND GREAT WHITE CANOE

Hide somethings from yourself. Try it. It is hard but some people found ways to do it. It is the greatest attention call. But you should know that something is hidden. It is used by magical Orders. It is used by Women through ages. Clothes are also causing the same effect. Even God uses this technique, to cause you struggle to find her.

How can you hide something from yourself?

Perhaps you already did, and not able to remember it? Okay, come on, I am joking. But, just go and give a try to find a way to hide something from yourself.

Learning mind is like a laser beam in relation to your body. It tries to discover. It is very much 'male'. When a 'veil' is put on anything, mind tries to 'learn' what is behind. One of the best methods to keep mind focused on something is to make it wear clothes. (My "find a way to hide something from yourself" is not that easy, I meant make something hidden from your mind) Veils attract mind focus. Even your soul wears clothes and here is your material self and ego emerged.

What is the role of veils in these happenings? What are they trying to do? What is the aim of it?

BLACK LIGHT: A WORLD TO WIN

Powerful people does not give their interest on petty things. You cannot attract them by ordinary material ends.

Knowledge? Well, maybe. Not necessarily. Beauty? False stop. Perhaps the real answer is 'understanding'. Then you should develop an understanding well beyond any others and perform it. Essence of the Order.

Only the ones who deserve knowing it should know it. Others: show them the same thing, explain the wisdom of 'act', and what they understand will be this= "They have an interest-catching organization aimed on controlling powerful people utilizing theatrical ceremonies, serving such desires like 'knowing the mysterious' and 'being a mystical person' within such aristocratic weirdoes." From a side: a good explanation.

But that's not the answer to the big question I have installed on your mind, weirdo.

Some see different. I have seen such a scene. My Master unveiled a newly beheaded body, and said in a religious tone in the lodge:

"Thou shalt kill".

And I have repeated.

Have you ever witnessed such a thing?

ALIENS: RESURRECTION

Read 'Death Gate Cycle' series from Margaret Weis & Tracy Hickman. Or do not read it. After all, what would happen if you read any shit suggested to you? Life is not that long bad boy. For saving you from the struggle of reading those whole seven volumes I will sum up all the story of these series just within a sentence:

"Your mind is the first thing you should dabble with, and exit from."

Here is the end of the first chapter.

If you want the rest, pray..
