

IT'S A GREEN THING! (2010-2011 SCHOOL YEAR)

Instructor's Name: Phil Januszewski

School of Instructor: Carl Sandburg High School

Email Address of Instructor: pjanuszewski@d230.org

Date Competition Rules were created: 9-30-2010

Description and Rules for Competition: Students will take a written exam on all types of renewable energy, including but not limited to: Hydropower, Solar Power, Wind Power, Geothermal Power. Possible questions can relate to how the process is used to create energy, where it is used in the world, and how it is made and works. No outside resources are allowed to be used during the exam, just your brain.

How Scoring will be performed: Questions will be scored for correct answers. The team with the highest score wins the competition.

How Tie-Breaker will be performed (if needed): If a tie in scoring occurs, the team that takes the lesser amount of time wins.

Number of students allowed in each individual team:

One or two people can be on a single team.

Number of teams allowed to compete from each individual school: Only two total teams per school can compete. If both teams from the same school place in the top three, only the higher team will place in this competition.
