Ashok Gangadean Lecture Eurotas 2012

## THE IMPORTANCE OF TRANSPERSONAL LITERACY IN THE EMERGENCE OF AWAKENED GLOBAL CONSCIOUSNESS: OUR MATURATION AS A SPECIES

1<sup>st</sup> philosophy (term from Aristotle) deepest metaphysics, code for reality

I live in mindspace language

/I/ [lens of mind \*] Subject-Predicate relate to facts to capture the world on this level we are object

But all spiritual teachers say: we are not objects but I

How do we know the laws of thinking?

If we change our lens we change our view, the world eg., Genesis is true, Big Bang, Darwin, Einstein

The lens of mind /I/ creates the world, there are many different worlds

Different /I/ don't know how to communicate between these worlds, different things are true for different fragmented /I/. What make sense in one world often doesn't make sense in another

But "behind", "above", Global consciousness deeper layer of legacy, a transpersonal legacy  
From separatism to wholeness

Ashok came to transpersonal not only from psychology but also through ontology

The tao that is a name is not TAO

AUM: Krishna teach Arjuna that the world is fragmented, the Essence of Bhagavad gita

AUM space end separatism

Different language that separate language monolense=monologue have to go in to dialogue

I Thou interwoven  $I \propto$  THOU

### A person is not a thing A person is sacred

Kant what we see is functioned on mental structure

Das ding an Sich is beyond.

If only mental I no ethics. only phenomenology but no noumenology

I of ego is not fully Logos

You have to leave your history your ego your script.

Abraham has to leave Isaac for God

All Greek wisdom: leave the world of the senses to the world of Logos

History of philosophy of Europe the self is no-thing (Sartre), all is in language (Derrida)

A deep transpersonal drama journey into Logo sphere a deeper script, the I Thou culture

We missed the essence of Descartes meditations which is on first philosophy How far can I doubt?

If this is a dream I can not trust it, but  $2+2=4$  even in a dream math is true. but if tricked by a Demon? Cannot even trust mathematics. So Descartes discovered the world is not first knowledge... Cogito ergo sum. I AM Being is thinking. Here the ego cannot touch me But if I am finite there must be an infinite Being (Descartes 3<sup>rd</sup> meditation not in ordinary logic but in LOGOS ) Descartes discovered ((I Thou)) he saw ((I AM)) is ((I THOU))

Descartes was not mind-body dualist ...but couldn't find the link between the egomental dual and Logoic nondual

These notes are a scant reflection of the experience to listen to Ashok G talking. Probably also misinterpretations so read with care.  
Jan Pilotti Video of the lecture <http://www.youtube.com/watch?v=ltOt9rjLi48>

Demon of doubt and Demon of Separation I langue world dual the world(s) is(are) separated

I AM a presentation not a representation on/of Logos

But on duality I just a concept

Descartes said "I am" a new phenomenology says Husserl

Heidegger meditative thinking vs. talking thinking

Buddha four noble truth 1. Life is suffering; 2. The cause of suffering is our mental lens  
3 we can choose

4 we can go into Buddha space of compassion, connectivity of Transpersonal SUNAKA  
emptiness Everything is connected [JP cf entanglement]

Cf. Blake Infinity in a grand of sand and Eternity in hour ((T)) in /T/

All teacher call us from monologue I =it script to Logoscript I  $\infty$  THOU

Sin is separation from God, so we must die from the separatism

Sin is to be fallen from connectivity

Every word on monolevel /x/ in LOGO level ((X)), /I/ ((I))

Logos infinite field. you cannot step out of it you are surrounded by it and your are always  
already there. From ((/I/)) to ((I))

[I think the lecture ended here]

To move

DEEP DIALOGUE AT THE BAR (several hours with Ashok and a group on Eurotas 2012)

Sin + samsara = Sinsara

A=A law of identity cuts from unity = suffering identity is illness

I-it no love I-Thou Love!

Need script of logos a deeper script

A = A Hegel A and not A but still in the egobox; neither A nor A get out of the box

Your are always protected the real self always close to you

Therapist from Aumlevel touch the client in [Logo] level healing from her higher self by  
Dialogue

Abused girl heard voices to commit suicide. Therapist found the dialogue in girl of what  
happened could then dialogue with inner self

Faith have healed you faith is connection with the healing/whole

Desmond Tutu truth and reconciliation

Truth shall make us heal (Heidegger) [JP Jesus truth shall make you free?]

Dialogos is dia logos go /move in to Logos

1 dec Philadelphia Heal America American evolution not finished

A: 24-7 practice 8 fold way of Buddha

Not ego drink but Logo drink [cfr mindfulness]

Script is infinite so many ways to teach not only words, also actions

The world is scripting the world

Derida tried to break out of the box, Heidegger and M.de Ponit

Not to talk **about** ... because **then** locked in the box  
Talk from Aum sphere/Logos  
Transcategorical vision  
Nirvana is around us  
Cf Photosynthesis in plants Logosynthesis in Humans

Jesus I am the life How do we live it  
A: Not vegetarian logoterian  
Everything is connected but individual so Christ not same as Buddha  
To his students: Live mindfully forget all you learnt fixed pattern  
Not information but transformation Show up be aware 24-7 be aware of all  
Not I am running just running  
Ego culture a culture of violence using a violent script  
Learn children have the open heart  
Institute institutionalise violence  
God is here, we all must find our "G-spot"  
Find the grace, literacy, everyone must find their own password  
Ego can not force itself into Logos - you cant fake Orgasm  
You cant do it you must undo it not will it  
Not my will but Thy will  
Journey of enlightenment is the shortest and the longest at once.

Literacy of mindfulness  
((time)) is Now time  
Boundless of pathways into Logos  
The world does not belong to the egosphere homo sapiens go to Logosapiens

Help the student to see you have a G-spot Walk with Grace Modelling it  
If I say that I am enlightened I am not that  
Enlightenment is a living process, the field is shifting  
Everyone fall sometimes It is how we take the fall and rise again which brings/is  
enlightenment  
((NOW)) all time in a point SPACETIME as a point!!  
Remember is to connect  
Mood swings, multiple personality : heal by strengthen the contact with the self

**Awakening the global enlightenment it is not a luxury but a  
necessity**

Democracy of enlightenment Literacy belongs to the people

A: and a group work on proclaim EGO-strike  
"human-nature" is not ego but we are Logo nature  
But most people believe they are egosapiens  
In box knowledge is not knowledge : I separated from object  
But in Logos I ⇔ Object Noumina and Kant said we cant know it. But Buddha and Christ  
and all spiritual teachers say you can know it

(science) in ego box but we need ((science)) learnt by Buddha Krishna

How do you know the logo knowledge? Ethics is transpersonal

One sign performance, success

Truth shall heal

How do you know you are in Logo state?

As you know I am in love when you rise (not fall) in Love you know

Buddha doesn't answer that question because then goes into box.

Ecstasy ex stages

A sage on the stage or a coach on Logos

Phenomena what appears

Kant Noumena das ding an Sich be careful you cant know the object no thing in isolation

There is no object for itself

"I belief it rains" a sentence in the box

How do you believe in Logos

Faith is not egostate but trust that we are real, that higher self is real, faith is confidence

Fundamental field is infinite so here we can't (or can??) step out of the logos

Faith is the most powerful knowledge, a state of Being

I is always there so help client to get out of history

You can speak in the egostate or Logostate

A: as a lecturer with his voice help people open up for the Logos

A: was a egotecher then vent to in India discovered Bhagavad-Gita

First lectured in boxlevel didn't work so must found a new way speaking from the Logos

Speaking them into that you speak from heart

Step back for everything you learnt you must be willing to that

Saith music

art expressing philosophia in dress etc Creating presence

Jesus I am the way is not egolanguage but you must speak Logos

To save the planet we must have self-conscious on mass level

Great political revolution to give transpersonal literacy to all

All egostate name are distorted

\* Ashok: In my journey over decades as I discovered this fundamental shift across our teachings I found it essential to introduce explicit "markers" to help us see, learn and remember which "dimension" of life (language, meaning, experience, culture = literacy) we were living. So I chose to mark /egomental/ life and language with "/.../" signs, and to mark the shift into ((integral...holistic, dialogic)) life with "((...))" signs.

These notes are a scant reflection of the experience to listen to Ashok G talking. Probably also misinterpretations so read with care.
