The New Zealand Constitution

The Realm of New Zealand also comprises of Tokelau, the Ross Dependency, Cook Islands and Niue & has an existing Constitution though it is not contained within one document. Some of the Acts that make up NZ's Constitution are:

- Constitution Act 1986
- Judicature Act 1908;
- Treaty of Waitangi Act 1975;
- Human Rights Act 1993;
- Bill of Rights Act 1990
- Magna Carta 1297

For the purpose of Governing & Protecting our way of Life, our Property rights & our Human Rights

Most Laws were adopted from the Statute of Westminster in 1947 when NZ gained independence from Britain

The Government has set up the “Constitutional Advisory Panel” a panel of 12 people who are to represent the population of NZ to discuss a new Constitution However this panel represents less than 15% of NZ'ers and appears to have a mainly Pro-Maori, Marxist, Republic & Revisionist agenda

The final recommendations of this review are to be made known in 2013, after consultation with the community

Prime Minister John Key who believes it is inevitable NZ will become a Republic stated on the 20 April 2010

“We have a strong legal basis and constitutional framework”

So why would he now want to change it?

NZ Government approval & Bolivia, South America

John Key has now approved a review, Co-leading this Review are Bill English and Dr Pita Sharples of the racist Maori Party

The National Party has a Relationship Accord and Confidence & Supply Agreement with the Maori party. Which has led John Key to approve this Constitutional review

We are very used to PM John Key saying one thing and doing another by now

In 2008 Inspiration came to the activist Maori from the Republic of Bolivia who had just reviewed their Constitution allowing the indigenous people to take back more power in their government

In 2008 Bolivia had made the most:

'Far reaching and Radical constitution in the world'

Second only to the South African Constitution of 2002

Environment Rights above the Rights of Man

This Radical Bolivian Constitution proposed for adoption by NZ includes:

- Limits on how much you can earn
- How much land you can own.
- Distinct indigenous legal system taking into account uses, customs of land

There are now 36 'distinct nations' in Bolivia

Creation of the Native community lands have been a major goal of Bolivian indigenous movements

All property must pass a test be it a car or a house, by asking the question:

Does it serve a 'social function'? If Not, it is not considered 'legal' property and can be taken off you.

Dr. Pita Sharples has stated the Constitutional Advisory Panel will be discussing Republicanism even though it is not 'Formally' stated

The Constitutional Advisory Panel handbook covers an array of topics to be discussed including The Bill of Rights entrenchment of Property Rights and as a sub –topic Environmental Rights which involves the UN Agenda 21

Involving Redistribution of resources to Maori as a Nation within a nation.

The Bolivian constitution includes recognition of a 'mother earth deity' 'pachamama' where the earth/ environment has rights as that of a person.

This makes for huge implications by law for protection of private property. Environmental Protection vs Property Rights as we have already seen with the Resource Management Act 1991

Divide & Rule

Helen Clark states:

“There are many international treaties and conventions which have enshrined the rights of people to pursue all three pillars of sustainable development...”

What Helen Clark is referring to as “Treaties and Conventions” include the Agenda 21 and Millenium Development Goals Programme.

By adopting these declarations into existing law, as NZ has already done in most major policy areas, they begin to have effect at a national level. You may think you are dealing with the Resource Management Act, what you are really dealing with is Agenda 21 with the UN force behind it... The real trophy they are playing for is control of your life

Quote From the NZ Ministry for the Environment website:

“Agenda 21 is a plan for use by governments, local authorities and individuals to implement the principle of “Sustainable development” contained in the Rio Declaration. ...adopted by about 180 countries...”

...NZ’s legislation is largely in accord with the themes of Agenda 21 (for example the Resource Management Act 1991 and Local Government Act 2002)

“The 2002 World Summit on Sustainable Development agreed on the Johannesburg Plan of Implementation Under the UN DESA (UN Dept Economic & Social Affairs)”

The UN recognizes the Earth as a ‘living entity that humans have sought to dominate and exploit’ Bolivia enacted the law of the rights of mother earth in January 2012

Divide & Rule

NZ's Wanganui River has been given this same 'living entity' status, the agreement was signed between Whanganui Iwi Brendan Puketapu of the Whanganui Maori Trust and the Crown, Chris Finlayson on 30 August 2012

Opening up possibilities for claims under a potential international court for the Environment

“Environmental regulation imposes a cost on landowners,

Environmental controls that affect both the use and exchange of a land owners property

Such controls must be weighed against the need to protect property rights”

~~~~~

*“Private Property and Freedom are Inseparable” – George Washington*

United Nations Declaration on indigenous rights (UNDRIP)

Activist Moana Jackson wrote the Draft for the (UNDRIP):

“United Nations Declaration on the Rights of Indigenous Peoples”

Then with a backroom deal with PM John Key’s blessing Dr Pita Sharples flew to the UN and Signed the Declaration to ensure Maori were given the status of ‘Indigenous’ people of NZ

The signing into International law had to take place before any discussion on a new constitution, as Maori activists needed special status as Indigenous people so they could implement the Bolivian style indigenous constitution into NZ law

Maori are significantly of mixed ethnicities today through inter-marriage & the problem is they are not indigenous. There is no forensic evidence that Maori are Indigenous to NZ, there is however significant evidence of early civilization existing prior to the Maori arriving in NZ

The Government cannot legally quantify a definition for Indigenous people & There is no Blood quantum measurement, which essentially means there is no pure indigenous race, and that anyone could effectively claim to be Maori

NZ's Founding Documents & Geoffrey Palmer

The Treaty of Waitangi was signed 6 Feb 1840

Through the Treaty of Waitangi Act 1975 our Founding Treaty was overturned and replaced with new interpretations and meanings. The Waitangi Tribunal uses an old draft letter dated 3rd Feb 1840 & the Principles to determine Maori Claims it does not use the Treaty of Waitangi.

The Lawyers, Maori Academics and Activists are looking to entrench this false Treaty into our Constitution to take away the rights to our way of life, property rights for more than 85% of the population putting control into a very small proportion of the population

The Secretariat of the Constitutional Advisory Panel, also stated:

“Any conversation about the Treaty must fully involve M ori, as Treaty partners”.

However there is **No** ‘Partnership’ between Maori and the Crown in the Treaty of Waitangi & There are **No** ‘Principles’ in the Treaty of Waitangi.

The Principles were created by Geoffrey Palmer to give favour to Labour MP & Lawyer Richard Prebble and have never been part of the Treaty.

Both the Principles & Partnership have been made up to suit the Treaty Gravy Train and they are now trying to entrench this into Law through the new constitution

Geoffrey Palmer was responsible for considerable reforms of NZs legal and Constitutional framework. He initiated the Resource Management Act law reform that eventually led to the creation of the RMA 1991. Mai Chen is a prominent Constitutional Lawyer & Partner in the law firm Chen Palmer alongside Geoffrey Palmer

Divide & Rule

Geoffrey Palmers Son Matthew Palmer also of Victoria University wrote a book in 2008 titled “*The Treaty of Waitangi in New Zealand’s Law and Constitution*” in which he proposes formerly incorporating the Treaty of Waitangi into the law and establishing a Treaty of Waitangi Court.

NZ’s Treaty of Waitangi that was signed by 540 Maori Chiefs in 1840 states Equality for all New Zealanders under the same laws, rights and justice and needs to be re-instated

The True interpretation of the Treaty of Waitangi is within the Final English Draft / also known as the ‘Littlewood’ document or treaty dated 4th Feb 1840

These documents need to be re-established. We need to be one people as the Treaty of Waitangi was intended “*He Iwi Tahi Tatou*” – *We Are All One People*

The Treaty guarantees for all the people of NZ equality and has no references to Forestry or fisheries

To date these Maori claims have secured around \$37Billion to less than 15% of the population, as well as costs from Lawyers, Researchers, Waitangi Tribunal to the NZ taxpayer.

The Constitutional Review panel has an agenda to foist Marxist ideologies and radical Globalist laws on to the people of NZ

They are Looking to entrench of a false treaty into law when our true one exists

Through this constitution review discussion the panel is looking at the potential entrenchment on:

- Property rights the environment and UN Agenda 21
- Maori rights being entrenched as indigenous, special rights above all other New Zealanders

Divide & Rule

Our national sovereignty is being challenged with a Bolivian styled socialist re-distribution of wealth

These Globalists, Academic, Marxists, Activists and revisionists are trying to test our hearts, with their top down enforcement of lies & theft

~~~~~

*“Once again a majority of this court has proved that if enough people get together and act in concert, they can take something and not pay for it...*

*...But theft is still theft. Theft is theft even when the government approves of the thievery....*

*...Turning a democracy into a kleptocracy does not enhance the stature of the thieves; it only diminishes the legitimacy of the government”*

– Justice Janice Brown

Geoffrey Palmer

Geoffrey Palmer – Is the Man who created the fabricated ‘Principles’ of the Treaty of Waitangi. They were incorporated into the State Owned Enterprises Act 1986. There is no definition for these principles and they should never have been incorporated into the law, these Principles and Partnership allow the Treaty Gravy Train, Lawyers and Waitangi Tribunal to create a new meaning for NZ’s Treaty of Waitangi and should be removed

He was President of the NZ Law Commission involved with reviews and reforms of NZ Laws right up until 2010.

He has been on the International Court of Justice and a member of the Privy Council.

Geoffrey Palmer is responsible for considerable reforms of NZ’s legal and Constitutional framework, reforming the Constitution Act 1986, NZ Bill of Rights, Imperial Laws Application Act, State Sector Act RMA – Resource Management Act. He held the Environmental Portfolio as Prime minister, he initiated the RMA law reform. Geoffrey Palmer runs a Law firm Chen Palmer, with partner Mai Chen is involved in Constitutional Law. Sir Geoffrey Palmer said:

“a transition to a republic was inevitable, the question is when and a lot of work is required to be done before that happens – legal and constitutional work – and that hasn’t been done”...“A referendum would probably be the best avenue”.

In August 2010 Palmer headed a UN Inquiry panel regarding Israel. His Son Matthew Palmer who wrote the book on NZ Constitution proposing formally incorporating the Treaty of Waitangi into the law and establishing a Treaty of Waitangi Court.

The Globalists & Activists

NZ activists & revisionists like Margaret Mutu, Moana Jackson, Matthew Palmer & Geoffrey Palmer alongside Global political players Mike Moore & Helen Clark ex PM's of NZ and recently of the UN and WTO have made it their business to instigate a new Constitution for NZ based on the Bolivian example.

Billionaire George Soros has called Mike Moore:

“The human face of Globalisation”

Mike Moore & Gro Harlem Brundtland have closely worked together when they co-wrote a WHO & WTO report called: “WTO agreements and public health” one quote from this report from the Rome Declaration on World security states:

“Food Security exists when all people at all times , have physical and economic access to sufficient, safe and nutritious food to meet their dietary needs and food preferences for an active and healthy life’

How could this be monitored? Is The Government is to supply food to the people in other words ‘Socialism’

Mike Moore who is on the David Rockefeller (*an unapologetic Globalist*) founded Trilateral commission stated In his book ‘World without walls’:

“Globalisation joins imperialism, colonialism, capitalism and communism which can be wielded like a club in almost any ideological direction”

Kofi Annan ex secretary general of the UN stated regarding the challenges of globalisation:

“If you are into control, it's frightening, this thing cannot stop”

Divide & Rule

Helen Clark 3rd in charge at the UN whose friend Gro Harlem Brundtland is also her choice of most inspirational woman leader & is the Creator of the Brundtland Report for the United Nations Agenda 21 which allows for Global Corporate take over of land and property rights.

Clark told her audience that Rio +20 will aim for **binding** rules on “*Sustainable Development*” a cause championed by Brundtland

The United Nations wishes for us to believe that the UN decisions are voluntary as the UN doesn't have the rights to be able to change the laws of a democratic Sovereign Nation without going through a democratic process. However Laws that enable the introduction of undemocratic decision making by un-elected people at the United Nations is currently being enforced into NZ Law by stealth and without the general population even being aware of it.

Helen Clark wants to make the United Nations laws the Law for the World, which would then codify the redistribution of wealth, taking away private property rights and introducing A Global Socialism including population control

Helen Clark and Mike Moore both have very close ties to Billionaire George Soros 35th Richest Man & Globalist.

NZ is battling division from Marxist Activists who are splitting the country in two with their Pro-Maori agenda over and above all other people of New Zealand,

The International community is increasing globalisation, laws and rights over our nation stripping away our sovereignty, this Constitution review appears to be Maori protesting for more rights, when infact it is opening the door for further removal of our rights, property rights, rights to our way of life through significant law changes without democratic consultation

These university revisionists like Jane Kelsey proprot to be against globalisation & lately the Trans pacific partnership, yet are firmly in the Moana Jackson camp.

Divide & Rule

Moana Jackson being the Activist Lawyer who drafted the UNDRIP, that has given status of 'Indigenous peoples' to the Maori by the new world government the United Nations. So much for being anti-globalisation!

The United Nations is working on having a world without walls, a global society without borders and with one law under the UN, one media, one authority for development, one source of wealth, one international army the construction of a 'just society' with political and social equality' rather than a free society with the individual as the sole possessor of rights.

These Activists, Marxists, Radicals and University Revisionists are all working together on dividing NZ for their own personal agenda and gains, at the expense of all other New Zealanders. They are selling out NZ sovereignty and allowing the Global takeover

Moana Jackson is a well known activist and Maori lawyer specializing in Treaty of Waitangi & constitutional issues. Former advisor to the Maori party and has worked extensively overseas on international indigenous issues, particularly the drafting of the United Nations Declaration on the Rights of Indigenous Peoples. He was a former Judge on the Tribunal of Indigenous Rights in Hawaii in 1993. He met with President of Bolivia Evo Morales at the UN in New York where he discussed the new Bolivian constitution and what a truly indigenous inspired constitution might look like.

Prof. Margaret Mutu is a Ngati Kahu activist, and academic, & chief negotiator & chairperson of the Ngati kahu runanga executive, representing the iwi or tribe. She has taught Maori language and Treaty of Waitangi courses since 1986. She is head of department at Auckland University. According to Maori studies professor Margaret Mutu who launched the independent constitutional working group:

Divide & Rule

“Bolivia provides the model for a working constitution NZ should have”

Margaret Mutu says:

“In Bolivia the native people are the Government and that’s become a model for Maori”

and

“They have brought in a constitution that’s shaped around their cultural values, and she’s very interested in looking at it. Some controversial statements she has made including “we own it” (referring to the New Zealand foreshore and seabed controversy) She was also reported to have said:

that the immigration of whites is a threat due to their white supremacist attitudes.

Many natural born New Zealanders of both Maori and European descent regarded Mutu’s comments as racist and unfounded. She has stated:

“Maori are incapable of being racists because they are not in a position of power”

The Rockefeller Foundation

The Rockefeller Foundation legacy ranks among the most influential NGOs in the world. It has supported United Nations programs throughout its history such as the recent First Global Forum on Human Development, organized by the UNDP in 1999.

(From wikipedia) -The Rockefeller Foundation helped to develop and fund various German eugenics programs including the one that Josef Mengeles worked in before he went to Auschwitz The Rockefeller Foundation, funded Nazi racial studies even after it was clear what this research was being used to rationalize the demonizing of Jews and other groups. Up until 1939 the Rockefeller Foundation was funding research used to support Nazi racial science studies at the Kaiser Wilhelm Institute of Anthropology, Human Heredity, and Eugenics (KWIA.) Reports submitted to Rockefeller did not hide what these studies were being used to justify, but Rockefeller continued the funding and refrained from criticizing this research so closely derived from Nazi ideology. The Rockefeller Foundation did not alert “the world to the nature of German science and the racist folly” that German anthropology promulgated and Rockefeller funded for years after the passage of the 1935 Nuremberg racial laws.

Funding has extended to agricultural development to expand food supplies around the world including GMO Rice. Also supporting the early initiatives of Henry Kissinger. The Rockefeller Foundation succeeded in getting the Ford Foundation, USAID and the World Bank to sign on to the major philanthropic project called **The Green Revolution** costing 600 million over 50 years biotechnology research, investing in transgenic crops. In 2006 it joined with the Bill & Melinda Gates Foundation in a \$150million effort to fight hunger. The Rockefeller Foundation Financially Backs ICLEI in NZ

George Soros

George Soros founded the Open Society Institute a Non- Governmental Organisation NGO through which he funds Agenda 21 & ICLEI and numerous organizations that fit his purposes.

Soros has poured over \$7Bn into Open Society Foundations.

George Soros otherwise known as the “Man who broke the bank of England” in 1992 and International Financial terrorist, collapsed economies in Thailand, Malaysia, Indonesia, Japan, Russia & has funded revolutions in Czech Republic, Ukraine, Georgia, Slovakia, Croatia, Yugoslavia. Lately targeting USA

The New Zealand Connection

just to name a couple of examples:

George Soros recently held 22 million shares in Petrobras the controversial off-shore extreme deep sea oil drilling company PM John Key approved on the East Coast of NZ

Soros is the second largest Shareholder in Monsanto that amongst other things supplies through Tull Chemical the 1080 chemical that destroys NZ's wildlife

Soros had 11,000 Shares in ‘Rapid Scan’ body scanner that was purchased by the government in July 2011 for Auckland Airport contravening the Human rights Act 1993

A few of the major funds George Soros contributes to are:

Quantum Fund, Soros Fund, Open Society Foundation, Tides Foundation, Media Matters, Amnesty International, Bill of Rights Defence committee, Brookings Institution, Catholics for choice, Catholics in Alliance for the common good,

Non Governmental Organisations or NGOs

NGOs are viewed by the United Nations as 'Civil Society' as if organizations like this can represent 'The People' when it comes to democracy and law changes

There are hundreds of NGOs Internationally & in New Zealand such as:

- **McGuinness Institute** (formerly Sustainable Future Institute NZ)
Funded by UN Millenium Project, George Soros, Bill Gates
- **The Environmental Defence Society (NZ)**
Funded by George Soros, Open Society Institute
- **The Climate Defence Network (NZ)**
Funded by George Soros, Open Society Institute
- **Amnesty International NZ**
Funded by George Soros, Open Society Institute
- **WWF (NZ)**
Funded by George Soros, Open Society Institute
- **NZ Green Building Council WGBC**
Funded by International UN Millenium Project, George Soros, Bill Gates
- **Family Planning NZ (Planned Parenthood)**
Funded by George Soros, Open Society Institute, Bill Gates, Warren Buffett
- **The Peace Foundation NZ** (& Mayors for Peace is an official NGO with UN)
Funded by the United Nations, Open Society Institute

The United Nations is made up of un-elected bodies with no accountability. The NGOs that make up the United Nations civil society are also made up of unelected bodies. The NGOs represent 'The People' when it comes to supposed 'democratic' decision making with no discussion with the actual citizens of NZ

Divide & Rule

and these are just a few of them...there is NO democracy involved in the United Nations process.

NGOs have specific political agenda, which they desire to become law of the land. Through work in International summits and conferences their political wish list becomes official government policy.

Through Public / Private partnerships between the Government and NGOs the government gives benefits such as tax exemptions, insider privileges, subsidies and incentives specifically so that ***Free Enterprise Cannot Compete***

Thousands of private Non-Government Organizations that have attached themselves to the United Nations like leeches they are well funded and right on target.

No one describes the NGOs better than Phyllis Schlafly who has watched them for decades:

“The NGOs are energetic lobbyists for dramatic changes in the mission and structure of the UN to achieve global governance.

Most NGOs are also members of the International Union for the Conservation of Nature (IUCN), which originated many of the global environmental polices set forth in the Convention on Biological Diversity, the Convention on Climate Change, and Agenda 21.

The most prominent NGOs are the radical environmental groups such as the Sierra Club and the feminist and population-control groups such as Planned Parenthood.”

The McGuinness Institute (NGO):

In August 2012 The McGuinness Institute in Wellington hosted a 48 hour 'Constitutional Review Initiative' through a project called "EmpowerNZ" which was attended by MPs Paul Goldsmith, Charles Chauvel, Peter Dunne, Te Ururoa Flavell, Hone Harawira & Metiria Turei, Members of the Cross Party Reference Panel, NZ Permanent Rep to the UN Jim Mclay, the Constitutional Advisory Panel, Consultants, Historian Dr Claudia Orange and High Court Judge Hon Justice Joseph Williams.

Wendy McGuinness founded the "Sustainable Future Institute" in Wellington, Which underwent a name change to "McGuinness Institute" in February 2012, Mark McGuinness is founder of Willis Bond & Co Property development and investment. David McGuinness worked at Simpson Grierson the same company that Metiria Turei worked for

The McGuinness Institute is a 'node' of the "Millenium Project" which is funded by The United States Environmental Protection Agency, The United Nations Development Program, UNESCO, George Soros' through the Open Society Institute and the Bill and Melinda Gates Foundation

UN DESA -Sha Zukang

Sha Zukang of the United Nations UN DESA – UN Dept. Economic & Social Affairs, Served as a senior diplomat in the communist Chinese dictatorship for nearly four decades

He is seeking to ‘dramatically transform human civilisation’ under the guise of “environmentalism, production, education, consumption, individual rights and even people’s thoughts” will be targeted under his global plan to create a so-called ‘Green Economy’

The UN DESA – UN Department of Economic and Social Affairs’ Division for Sustainable Development monitors and evaluates progress, nation by nation, towards the adoption of Agenda 21, and makes these reports available to the public on its website – (see also Wikipedia)

An Ever increasing United Nations Control over NZ through the Government, Local Government RMA, ICLEI & CCP-NZ for control over the general population, The Government finds it’self continually pressurized to fall in to line and this is why a new Constitution is favourable to communist globalisation agenda.

The UN Agenda 21

At risk from Agenda 21:

- Private Property ownership
- Single-Family homes
- Private car ownership and individual travel choices
- Privately owned farms

The Agenda 21 plan openly targets private property. For over thirty-five years the UN has made their stance very clear on the issue of individuals owning land

“Land... cannot be treated as an ordinary asset, controlled by individuals and subject to the pressures and inefficiencies of the market. Private land ownership is also a principal instrument of accumulation and concentration of wealth and therefore contributes to social injustice; if unchecked, it may become a major obstacle in the planning and implementation of development schemes. The provision of decent dwellings and healthy conditions for the people can only be achieved if land is used in the interest of society as a whole.”

NZ is being transformed from ‘Equal Justice’ to ‘Social Justice’ through Government legislation and Councils via the Resource Management Act, ICLEI & CCP-NZ.

ICLEI NZ is financially backed by the Rockefeller Foundation (see chapter on Rockefeller Foundation)

Agenda 21 has funding from Billionaire George Soros via the Open Society Institute An NGO or Non Governmental Organisation (see chapter on George Soros)

Divide & Rule

Outlined in Agenda 21 by it's proponents is a much larger threat than just land use planning. They Openly advocate massive reduction of human population, some call for as much as 85% in order to save the planet.

“Current Lifestyles and consumption patterns of the affluent middle class – involving high meat intake, use of fossil fuels, appliances, home and work air conditioning, and suburban housing are not sustainable.”

ICLEI

ICLEI in New Zealand is financially backed by the ***Rockerfeller Foundation***; ICLEI Local Governments for Environmental Initiatives (formerly Local Governments for Sustainability) founded 1990, It is an international association of local governments (councils) that have made a commitment to '*Sustainable development*'.

ICLEI works through international performance based programs. providing technical consulting, training and information, sharing knowledge and support to the council in the implementation of sustainable development at the local level. ICLEI's basic premise is that locally designed initiatives can provide an effective and cost-efficient way to achieve local, national, and global sustainability objectives.

Sustainable Development

Sustainable Development is an initiative of the United Nations called 'Sustainable Development Agenda 21'. It is a comprehensive statement of a political ideology that is being progressively infused into every level of government. Known simply as Agenda 21. It was unveiled in 1992 during the UN conference on Environment & Development (UNCED) commonly known as the Rio Earth Summit

The most common definition of Sustainable Development by it's proponents is in a statement from the Brundtland Report 'Our Common Future' released during the 1987 UN World commission on Environment and Development:

"Development that meets the needs of the present without compromising the ability of future generations to meet their own needs".

However Freedom Advocates have stated:

"Sustainable development is restructuring our lives and is targeting our children through an educational regime that seeks to develop collectivist attitudes, values and beliefs. Sustainable development documents call for the abolishment of private property and the freedom that private property supports ... "

The UN Agenda 21 Plan

Equity ~ Social & Economic: Introducing discussion on 'Poverty' while adjusting our perspective of thinking towards 'Social Justice' and away from 'Equal Justice'. Tying environmentalism to poverty and economic development would bring the entire agenda to a level of an international emergency. One world, One media, One authority for development, One source of wealth, One International army. The construction of a 'just society' with political and social equality rather than a free society with the individual as the sole possessor of rights.

Economy ~ Conservation & Management of Resources for Development: Wealth redistributed through transfer of resources to developing nations. This justification covers up the real transfer of power and resources to the elite that drive world government

The creation of Public/Private partnerships between the government and NGOs non governmental organizations charities or privately funded, where the govt. provides extra benefits such as tax exemptions, insider privileges, subsidies and incentives specifically so that **Free Enterprise cannot compete**

Environment ~ strengthening the role of major groups: Where environmental rights are placed above those of the rights of Man

'Sustainable development' is more about restructuring the governmental system of the world nations so that all the people of the world will be subjects of a global collective. Many of the proposed implementation strategies require the surrender of Inalienable rights, human rights, private property rights

Implementation: NZ is using the Johannesburg implementation of the UN Agenda 21

Other Global Agenda Trans-pacific Partnership

(encroaching on NZ Democracy & Individual rights)

Trans-pacific Partnership - TPP is a multi-lateral free trade agreement of countries in the Asia – pacific region. It has drawn criticism and protest from the public and elected officials due to the secrecy of the negotiations and controversial clauses in drafts leaked to the public. Helen Clark signed New Zealand up to the P3 CEP in 2002 which eventually became the TPP

Of the TPP 26 chapters under negotiation, only a few have to do directly with trade. The other chapters enshrine new rights and privileges for major corporations while ***weakening the power of nation states to oppose them***

In 2011 legal experts in New Zealand presented their concerns that the TPP agreement could undermine law regarding M ori culture, genetic modification, copyright, and remove the subsidised medicine New Zealanders have access to through Pharmac.

In 2012, US Senator Ron Wyden introduced S. 3225, a proposed legislation to require TPP to give greater transparency of its documents:

*“The Majority of Congress is being kept in the dark as to the substance of the TPP negotiations, while representatives of US Corporations like **Halliburton, Chevron, PHRMA, Comcast & the Motion Picture Association of America** are being consulted and made privy to details of the agreement...*

... more than two months after receiving the proper security credentials, my staff is still barred from viewing the details of the proposals that USTR is advancing. We hear that the process by which TPP is being negotiated has been a model of transparency. I disagree with that statement.”

Divide & Rule

The TPP investor-state arbitration permits foreign investors to bring claims directly against states / nations if they perceive their property or investment (incl. Intellectual property) has been expropriated 'unfairly'

The TPP argues that traditional investment treaty standards are incompatible with environmental law, human rights protection and public welfare regulation meaning that TPP will be used to force states/ nations to lower standards or be sued for damages

Investor-state arbitration gives transnational corporations powers to trump the sovereign powers of nations and states and hold back important policy developments related to sustainability and a clean energy future.

Other Global Agenda ACTA

(encroaching on NZ Democracy & Individual rights)

Anti-Counterfeiting Trade Agreement ACTA is a multinational treaty for the purpose of establishing international standards for intellectual property rights enforcement

The agreement aims to establish an international legal framework for targeting counterfeit goods, generic medicines and copyright infringement on the internet, and would create a new governing body outside existing forums, such as the WTO, WIPO or UN.

Opponents say the convention adversely affects rights including freedom of expression and privacy.

The secret nature of negotiations has excluded civil society groups, developing countries and the general public from the negotiation process and has been described as 'policy laundering' by critics incl. The Electronic Frontier Foundation & the Entertainment Consumers Association

Globalists & Elite Billionaires:

- PM John Key gave Warner Brothers a \$15million tax break, an overnight change in employment law and a further \$10m to promote NZ. So far the Government has provided a 15% tax break for movie making in NZ costing the taxpayer over \$500million. John key is in discussion with Warner Brothers again Oct 2012 regarding a further 30% tax exemption for the movie industry
- Warner Brothers and the Movie industry are also looking for tighter controls over intellectual property as part of the Trans pacific partnership which could include limits to access to the internet. The TPP does not recognize the rights of local business over that of the International community
- PM John Key has ties to the Elites through his background in Investment banking & Merrill lynch 'The Irish Catholic Bank of Wall Street'
- Mike Moore, Helen Clark, George Soros, Maurice Strong, Sha Zukang, Jim Mclay, David Rockefeller, Jay Rockefeller, David Shearer, Charles Chauvel, David Parker, John Key, Bill & Melinda Gates, Bill & Hillary Clinton, Jim Wallis of Sojourners, Wendy McGuinness, Peter Townsend, Nick Smith, Gro Harlem Brundtland, Tim Grosser, Jenny Shipley, Joseph Stiglitz ...

~~~~~

*"I believe there are more instances of the abridgement of the freedom of the people by gradual silent encroachments of those in power, than by violent and sudden usurpation."* – James Madison

~~~~~

We do not need a constitution review

- What NZ needs is to have our founding documents restored to their rightful place, to recognize All the people of new Zealand under one law
- We need a **ROYAL COMMISSION OF INQUIRY** to investigate what has happened to our founding documents over the last 37 years, and to re-establish our founding documents
- We need to throw out the Trans-pacific partnership TPP a Globalist agreement that allows foreign corporates to bring claims against our nation and reclaim our National Sovereignty
- We need to Remove '*Sustainable Development*' & '*Social Justice*' initiatives and the UN Agenda 21 from Central government, Local government, Churches & every part of our Society through the RMA, ICLEI & CCP-NZ from our local councils and throw out fabricated 'Gravy Train laws that create **DIVISION**
- & Return our society to 'Equal Justice' with full protection of Private Property rights and greatest recognition to that of 'The People'
