Dear Sonja,

Thank you so much for your card.

These are such exciting times we live in and my most important lesson has been to understand that a positive and productive life is up to each one of us individually.

We are our own realizers. We are our own best teachers.

Remember to keep the knowingness that the God source is within you. Trust it and your life and love will reflect it!

Thank you again for your card.

Love and Light,
